***New Federalism Fund Applauds Bipartisan Leadership on the STATES Act***

DENVER, CO (06/07/18) – Chairman of the New Federalism Fund Releases Statement on the STATES Act:

"We applaud Senator Gardner, Senator Warren, Congressman Joyce, Congressman Blumenauer, and the rest of the cosponsors for their bipartisan leadership on the STATES Act. Conflicts between federal and state law are creating untenable issues for the state-licensed and regulated cannabis industry. The STATES ACT amends the Controlled Substances Act to bring federal drug policy back into alignment with the 10th Amendment, allowing each state to determine the best cannabis policy for their citizens. This is as the Founders would have intended, making the STATES Act an important step towards a humane and constitutional federal cannabis policy."

**About New Federalism Fund**

The New Federalism Fund is a non-partisan 501(c)(4). Its board members and contributors are those interested in state-first regulation of state-based commerce and creating a common sense regulatory system for those who are in or serve the state-based cannabis industry.
